With Cash App, we believe we're in a position to expand access to financial services to empower individuals all over the world to better spend, send, store, and invest their money. We want to make the world's relationship with money more relatable, instantly available, and universally accessible. Perspective: Remote Leadership

**We're focused on using our platform
to economically empower our
communities.**

We're committed to finding ways to partner
with and build communities that help us all
be part of achieving our goal of driving
financial inclusion, literacy, and access. In May
2020, we launched a 10-day giving campaign
highlighting grassroots organizations that are
focused on uplifting marginalized Back and
Brown communities in cities across the
United States. We donated $50,000 to each
community organization and matched
payments to their $Cashtags up to an
additional $50,000.
